Sonipat Water Action Plan

District Level Competition for High School Students

About *the Competition*

Water is a fundamental and critical resource for human survival, and it is essential to address the challenges associated with its scarcity. With increasing population, industrialization, and inadequate sustainable water management practices, there has been a significant depletion of groundwater over the years. Therefore, it is crucial to implement water conservation and management systems that ensure the availability of safe and sustainable water for all, irrespective of its purpose.

We cordially invite high school students from the Sonipat district to propose a water action plan for the region. We encourage students to suggest innovative ways and methods to conserve water and contribute to groundwater preservation.

We are excited to announce that all the plans will be submitted to Shri Bhupendra Yadav Ji, and the winning proposal will receive an award from him. This competition provides an excellent platform for students to showcase their ideas and contribute to making Sonipat a water-resilient region. Let us work together towards creating a sustainable future for our community.

Bhupendra Yadav Ji

Union Cabinet Minister for Environment, Forest & Climate Change; and Labour & Employment | MP (RS)

Participation *Guidelines*

About Us

Rishihood University

Rishihood is India's first and only Impact University. Our academic areas include creativity, entrepreneurship, education, healthcare, and public leadership. Rishihood's multi-disciplinary style ensures that we nurture a generation of leaders who can bring a positive change in the world.

The university believes in an 'ecosystem' approach to learning rather than isolated training and research. Therefore, Rishihood actively engages and nurtures an ecosystem for our academic areas as well as for the larger growth of the nation and society. Our learning environment inspires people to achieve 'Rishihood'.
